HOT TUBS®

LIVING RIGHT NEVER FELT SO GOOD.

Nourishing your body and mind is more than a diet and exercise routine. Using heat and the element of massage, Healthy Living Hot Tubs by Master Spas deliver head-to-toe wellness. Enjoy a unique hydrotherapy experience that eases aches and pains, calms stress, and boosts the natural healing response. Experience a new way to improve your quality of life through purposeful relief and enhanced well-being.

LIVE LIFE BETTER

Healthy Living Hot Tubs combine the healing power of hot water with the benefits of massage therapy. Experience relief from the aches, pains, and stresses of life as the body's natural healing response is triggered. Healthy Living Hot Tubs offer a host of wellness benefits to help you live life better. Research* supports that soaking in a hot tub helps:

- Relieve stress and anxiety while improving sleep
- Relax muscles and release nerve pressure points
- Reduce blood pressure while improving circulation
- Benefit people with Type 2 diabetes and arthritis
- Speed recovery from injury or sports

MAGNETIC THERAPY

Our exclusive Master Force™ Bio-Magnetic Therapy System offers the benefits of magnetic therapy in the comfort of a hot tub. Magnetic therapy has been used for centuries to help relieve pain, improve circulation, reduce swelling, and alleviate stiffness. Today, more and more doctors and physical therapists are using magnetic therapy for the treatment of back problems, arthritis, and sports injuries.

That's why Master Spas, after extensive research and development, chose to combine the proven benefits of hydrotherapy with the pain relieving

comfort of bio-magnetic therapy. In

one seat of every Healthy Living

Hot Tub, our Master Force™ Bio-

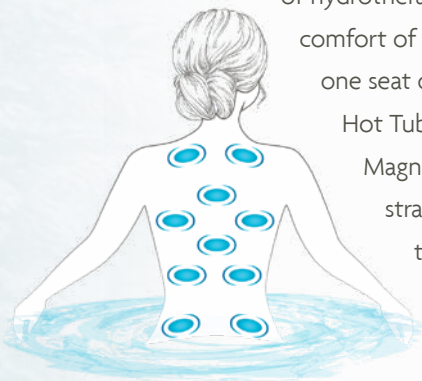

Magnetic Therapy System applies

strategically placed magnets to

ten pressure points behind

the areas of your neck,

shoulders and back.

STRESS RELIEF HYDROTHERAPY

Don't let a trying day get the best of you. Relieve stress and revive your senses as you relax, letting our strategically placed jets provide maximum hydrotherapy coverage for your shoulders, back, calves, arms, hands, and feet. Individual jet controls let you configure the ideal settings for you.

STRESSRELIEF NECK AND SHOULDER SEAT™

Our exclusive StressRelief Neck and Shoulder Seat features specially designed jets that apply tension-relieving massage where it's needed most, across the neck and shoulders.

ERGONOMIC DESIGN

From the minute you sit down, you'll feel the difference. Our engineers created seats that complement the contours of your body, making it easy to relax. Once you're wrapped in the comfort of the form-fitting seats, strategic jet placement delivers targeted hydrotherapy from head to toe.

PREMIUM STAINLESS STEEL JETS

Our premium stainless steel jets are the perfect accent to the acrylic shell to produce a sophisticated look. Healthy Living models feature an array of different jet types, from rotator jets that spin under water pressure, to soft tissue and multi-directional jets. All jet types are combined in a specific configuration to produce the best massage performance.

LED LIGHTING SYSTEM

Standard on HL 8 and HL 7 hot tubs, the Orion Light System™ is anything but ordinary. An array of colors illuminate the water, cascading waterfalls and backlit cup holders. With the touch of a button on the easy-to-use control panel, you can create custom lighting that adds beautiful ambiance to any occasion.

"We love our hot tub and use it numerous times a week. The therapeutic jets for shoulders, back, legs and feet are great for sore and tense muscles. Caring for the tub is super easy with the chemical reference sheet."

— Katie, Wisconsin

CLEAN, PURE WATER

At Master Spas, we want you to spend more time enjoying our products and less time taking care of them. That's why we developed the exclusive and patent-pending EcoPur® Charge Master Core Technology water purification system.

Using the same multi-stage filtration techniques as Mother Nature, EcoPur Charge relies on a unique blend of copper and zinc to create an electro-chemical reaction which eliminates many microorganisms and removes heavy metals. This results in sparkling water that feels softer and doesn't have the harsh chemical smells associated with common systems.

QUIETFLO WATER CARE SYSTEM™

What if you could fill your hot tub with fresh water every time you use it? With the optional QuietFlo Water Management System, you can. This amazing system moves water through your EcoPur Charge filtration system, up to 25 gallons per minute, 24/7. This means that a typical 7-foot hot tub can have complete filtration every 13 minutes.

ENERGY EFFICIENT

All of our hot tubs are built to be used year-round in any climate. In fact, our environmentally friendly insulation makes Healthy Living Hot Tubs among the most energy-efficient hot tubs in the industry.

By expanding to tightly seal and secure all areas under your hot tub, our insulation:

- Prevents heat loss
- Retains its shape and efficiency for the life of the product
- Resists mold and mildew
- Reduces the noise of your spa
- Produces no ozone harming off-gas and is environmentally safe

Every hot tub is built to not only meet but to exceed stringent energy-efficiency regulations. All resulting in what really matters — a superior spa experience and savings for you and your monthly utility bill.

PREMIUM OPTIONS

FUSION AIR SOUND SYSTEM

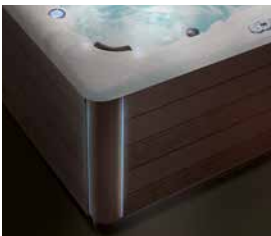

Listen to your favorite music while enjoying your hot tub. Two interior water-resistant speakers and a subwoofer maximize the sound quality. This system comes with a water resistant remote and connects

easily to your phone or other device via Bluetooth, allowing you to stream your favorite station or playlist.

WI-FI MODULE*

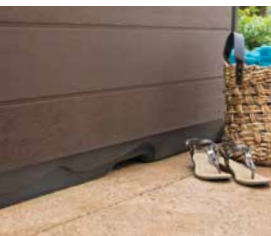

Remotely control the operations of your spa through a Wi-Fi spa control app. You can set the lighting, water temperature, and massage pumps to be ready when you are.

DREAM LIGHTING

Dream Lighting provides beautiful soft streams of light to accent the exterior corners of your Healthy Living Hot Tub at night. This option will be a beautiful addition to your backyard design.

VAC-FORMED ABS PAN BOTTOM**

The Vac-Formed ABS Pan Bottom is a premium, high-density polymer base designed to keep heat in and the elements out.

QUIETFLO WATER CARE SYSTEM™

Our advanced energy-efficient circulation pump moves water through your EcoPur® Charge filtration system, up to 25 gallons per minute, 24/7.

*Dealer Installed Option.

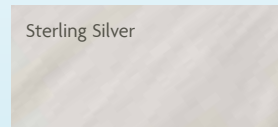

**Available as an option on HL 8 and HL 7.

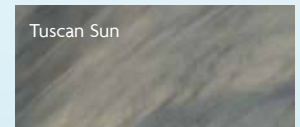

YOUR COLORS

Complement the color of your spa with the skirting color of your choice for a distinctive combination that's truly your own. DuraMaster Premium™ skirting is made of high-impact, weatherable polymer, has virtually no fading, and is so durable that it comes with a lifetime warranty.

MASTER SPAS CARES FOR KIDS

Master Spas and our dealers were part of building a new elementary school in 2013, and a new high school in 2018 for the NAZ Children's Centre in Rose Hall, Jamaica. This specialized Christian school offers multiple learning strategies to accommodate the neurodiversity of their student body. With every Master Spas swim spa sold, a donation will be made to the NAZ Children's Centre Scholarship Fund.

In our hometown, we are honored to partner with the Crossing School of Business and Entrepreneurship, a faith-based high school that turns at-risk youth into tomorrow's leaders. Master Spas provides operational space for vocational training and a micro business.

MASTER SPAS CARES FOR CURES

Master Spas is pleased and proud to assist two foundations dedicated to finding and funding the cures for life-hindering diseases.

Master Spas has partnered with the Lupus Foundation of America since 2002 to raise awareness and fund research toward finding a cure for this debilitating disease that affects more than 1.5 million Americans.

Master Spas has joined forces with the Vera Bradley Foundation for Breast Cancer to eradicate breast cancer, a life-threatening disease, by providing financial support for research and research-related projects.
